

# TROUT TRAVELS!

Draw a line to help the Brown Trout upstream to find its spawning ground...

## Fishy Facts

- Did you know, Brown Trout and Sea Trout are actually the same species! They can undergo a miraculous transformation that allows their bodies to survive in a completely different habitat: adapting from a freshwater habitat or a saltwater habitat!

Brown Trout caught in River Deerness (adapted to freshwater)

Sea Trout caught in the North Sea (adapted to saltwater)
